

Sustainable Careers Explored

Brighton: 14th July 2010

FREE to all individuals based in the South East region
(conditions apply. Lunch and refreshments will be provided)

This one day event is aimed at exploring the opportunities that are arising in careers in sustainability across a wide spectrum of industries. Sustainability has become a mainstream concept in the last few years and all aspects of the job market are now influenced in a variety of ways by sustainability.

The event is designed around looking in detail at specific industries. It is also designed in a way to understand the bigger picture in sustainability. Immediate, short term and long term outlooks will be addressed, with insights from key professionals who work in all aspects of sustainability, from the Chief Executive level to practical individuals that have forged new paths in mainstream fields.

The events are designed around interactivity with the audience. Presentations range from 20-30 minutes with 10-15 minutes of Questions and Answers immediately following.

Come along for a glimpse of the future, today.

How to book: email your name, company and contact details to:
